Important Notes:

- Due to existing limitations of physical space for offering benefits 3 and 4, there will be limitations for the number of sponsors at all levels. Therefore, accepting a sponsor for the benefit(s) will depend on finalizing the process of financial sponsorship (signing an agreement or contract with the Secretariat and the payment of the required fees).
- In each case where the need for including a logo arises, there are limitations in terms of space and size based on the type and conditions of logo; therefore, in each case, dimensions are determined as the "base dimensions" by IPF's Secretariat and its design team, and a percentage/ratio of the "base dimensions" is allocated to the sponsor based on the level of financial support.
- All benefits will be available upon the completion of the financial sponsorship process.
- Other cases can be negotiated upon sending an official request to the Secretariat by the potential sponsors.
